

ELECTRICAL ACCESSORIES

Contract Monitor 6025

Essential for every installer, the handy contract monitor is the best way to ensure your customer is left with a system that works. It monitors the circuit during the installation process and lets you know as soon as there is any damage to the circuit.

The must have accessory for every installer of our Electric Underfloor Heating systems.

Everything you need to ensure a fast, easy installation of our Electric Underfloor Heating products. Call us to order today.

Installation Kit 6000

This handy installation kit includes a Thermonet tape measure and a digital multi meter for essential pre-power up testing. Also, there's a handy mat cutter that helps you cut through Thermonet mesh easily and minimises the risk of cutting through the wire.
