MIRROR DE-MISTER PADS

**Thermomirror PRO** is available in bespoke sizes and can be **cut on site** to fit most mirrors.

## The Clear Solution

Mirrors are virtually guaranteed to steam up when using bathrooms and showers due to the condensing effect of cold glass.

Now there is a clear solution: Thermomirror. No more need to wipe mirrors dry because Thermomirror is a superthin (0.4mm) behind mirror heating element, controlled by the light switch or our PIR movement sensor (stock no 5264). Comes with self adhesive strips for easy installation.

### Other products you may need:

Stock no 5264 PIR Movement Sensor

Stock no 5320 Mirror Adhesive

Stock no 5322 Skeleton Gun

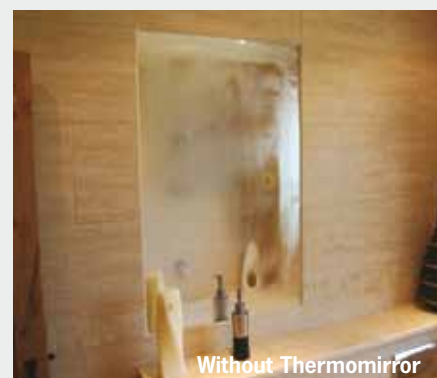

### WHY THERMOMIRROR PRO?

- CLEAR VISIBILITY
- CAN BE WIRED IN PARALLEL
- WIDE RANGE OF SIZES
- MAINS VOLTAGE

### Thermomirror PRO

STOCK NO	DESCRIPTION	SIZE (MM)	HEAT OUTPUT (W)	EX VAT (£)
5300	Thermomirror PRO	250 x 500	19	POA
5301	Thermomirror PRO	500 x 500	45	POA
5303	Thermomirror PRO	1000 x 500	90	POA
5305	Thermomirror PRO	1500 x 500	135	POA
5312	Thermomirror PRO	250 x 300	11	POA
5314	Thermomirror PRO	500 x 300	22	POA
5316	Thermomirror PRO	1000 x 300	45	POA

**Do not rely on the bond between the Thermomirror heater and the wall.**

Ensure you have sufficient fixing space around the mirror pad to fix the mirror directly to the wall using mirror adhesive (5320).

**Thermomirror EZ is fully self adhesive** with a single connection for easy installation. Available in a **variety of shapes and sizes.**
