

Outstanding in **quality, efficiency and design.** Convert heat and light from the sun into hot water, **even in the UK climate.**

The complete solution...

Thermosol by Reno Energy brings you the components you will need to provide a successful solar thermal installation to your customer.

Sourced from reputable suppliers, Thermosol provides premium quality components at affordable prices and a complete solar thermal hot water solution.

Thermosol Kit 1

Includes a 20 vacuum tube collector, roof mounting kit, Reno control unit, pump set and connectors. Suitable for 4 people.

Adults : 2
Children: 2

Thermosol Kit 2

Kit 2 is the same as kit 1 but instead comes with a 30 vacuum tube collector and will provide enough hot water for 6 people.

Adults : 3
Children: 3

Thermosol Kit 3

Kit 3 includes the patented U-Pipe Direct vacuum tubes and **can be mounted on horizontal** and vertical surfaces.

Adults : 2
Children: 2

Thermosol - Solar Collector Panel

Thermosol Kits
